INTRODUCTION

i

Welcome to the 1988-89 edition of the Alberta Education Publications Catalogue. The primary objective of this catalogue is to inform educators of departmental policies, programs and initiatives of Alberta Education by listing the publications produced by the department and how they can be acquired. This catalogue lists over 300 titles available from Central Support Services (CSS) that are either free or for sale.

This catalogue replaces the second edition (September, 1987). Please discard and replace with this edition. We are looking for assisting you in the future. Thank you.

This catalogue is easy to use. The publications are arranged in alphabetical order and the order number identifies each document into categories; e.g. the branch that created the publication; the category of the guide; grade level, and subject area.

PUBLICATION CODING STRUCTURE

Each guide will consist of ten digits, for example; Accounting: AD2302001. The first two numbers refer to the developmental code, the third digit refers to the category of guide, the fourth digit refers to the grade level of the material, the fifth and sixth digits refer to the subject area, and the last four numbers, numbered from 0001 - 9999, refers to the guide identifier.
